### 3. DEFINITIONS

As used in this Tariff, the following terms shall have the following meanings unless the context otherwise require:

- A. Bit - The smallest amount of information in the binary system of notation.
- B. Cable Facilities - A copper, coaxial and/or fiber optic cable network with associated repeater amplifiers and coupling devices which provides the path for transmission of signals to or from the Customer's or User's Premises.
- C. Commission - Arizona Corporation Commission.
- D. Customer - The person, firm, corporation or other legal entity which contracts with the Company to receive telecommunications services from the Company.
- E. Circuit - A communications path of a specific bandwidth or transmission speed between two or more points of termination.
- F. Facilities - All Company-owned or operated equipment and Cable Facilities used to provide telecommunications services.
- G. Individual Case Basis - A service arrangement for private line or private circuit services the Company will make available to Customers in a non-discriminatory manner. Rates for interexchange dedicated access, private line or circuit, non-switched services will be determined on an Individual Customer Basis (ICB). ICB rates will be structured to recover the Company's cost of providing the service and shall be filed with the Commission not later than five business days after execution. If the contract includes both competitive and noncompetitive services, it must be filed at least five business days prior to the effective date of the contract and must separately state the tariffed rate for the noncompetitive services and the price for the competitive services. ICB rates will not be used for switched services.
- H. Premises - A building or structure on property not separated by a public right-of-way. The property may be divided by a private right-of-way or easement, such as a railroad right-of-way.
- I. Private Line Service - An unswitched full-time transmission service utilizing the Facilities to connect two or more designated Customer or User locations.
- J. Terminating Facilities - All equipment placed in a structure that converts the transmitted signal to a requested service type, connects the structure to the Company's network and provides a point of interface/connection to which the Customer can connect its equipment. This equipment may include electronic equipment, cable, wiring, connecting panels and blocks.
- K. User - A person, firm, or corporation designated as a user of common carrier services furnished to the Customer. A User must be specifically named in the Customer's application for services.

## 7. SPECIAL CONSTRUCTION

Provision of service may require special construction of Facilities and equipment by the Company. Special construction arrangements of Facilities may be undertaken by the Company at the request of the Customer or User and upon determination by the Company that such charge should apply in the particular instance.

A. Survey and Design. Prior to engaging in any special construction, survey and design studies may be required. Should that be the case, the Company and the Customer may agree to arrange for the performance of those studies, the review and acceptance thereof by both the Company and the Customer, and the appropriate charges therefore. Failure to agree on the performance of such studies, the acceptability thereof, or the charges therefore, shall constitute grounds for denial of the requested service by the Company.

B. Charges for Special Construction. All recurring and non-recurring charges for special construction shall be set forth in the contract between the Company and the Customer, and shall be the responsibility of the Customer, regardless of the projected charges for the provision of service by the Company.

## 8. SPECIAL CHARGES

A. Out-of-Normal Work Hours: The charges specified in this Section 7 do not contemplate work being performed by Company employees at a time when overtime wages apply, due to the request of the Customer, nor do they contemplate work once begun being interrupted by the Customer. If the Customer requests labor be performed at hours of the day or days of the week other than during normal working hours or days (8:00 a.m. to 4:30 p.m., Monday through Friday), or during holidays, or if the Customer interrupts work once begun, an additional charge may be imposed, equal to the actual higher costs incurred by the Company for overtime and materials.

B. Maintenance and Service Charge: The Customer may be responsible for the cost incurred by the Company in connection with a maintenance and/or service visit to the Customer's or User's Premises when the difficulty or trouble results from the equipment or Facilities provided by the Customer or User, or when failure in the Company's equipment or Facilities is attributable to the Customer or User or their agents. Said cost shall be based upon the current labor rate and material costs of the Company in effect at the time of the visits.

C. Return Check Charge: The Company will not charge a return check charge.

D. Deposits, Advances or Prepayments: The Company will not collect deposits, advances or prepayments.

# 11. PRIVATE LINE SERVICES RATES AND CHARGES

## 1. Private Line Service

Private line service provides a dedicated transmission path on a point-to-point basis that does not interfere with a Company switch. Private line is offered on a DC-n and OC-n level. DC-n Services include DS-1 and DS-3 level. OC-n Services include OC-3, OC-12, OC-48 and OC-192 level.

Frame Relay and ATM Services also available.
